**KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM AUGUST 2004:** The month of August is dedicated to stress management. Many of us often deal with events, issues, and persons at work, at home and everywhere in between that leave us feeling stressed. Moreover, stress has been implicated in at least 80% of the illnesses that plague our society. Thus, it is important to learn how to effectively handle stressful events and change our perception about potential stressors.

This month's information packet contains information, techniques and tips for stress management including addressing stress at work, at home and on the road. The packet is available at the following link: <http://sgs.ksc.nasa.gov/sgs/sites/other/chs/omehs/occmcd/home/index.cfm?page=hew>

Hardcopies of the packet are available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414. (TA-C2)

**STRESS MANAGEMENT EDUCATION TABLE:** The monthly health education table will be set up at the MFF Cafeteria (launch area) on August 26<sup>th</sup> from 11 AM to 1 PM where HEWP staff will distribute various materials related to stress management and answer questions. (TA-C2)

**\*\*New\*\* STRESS MANAGEMENT WORKSHOP:** Based on expressed interest, any employee group can request delivery (at any time of the year, during the workday) of a newly developed, interactive workshop designed to teach employees how to handle stress at their workplace and in their lives. The workshop can be condensed to 30 minutes or extended to more than an hour for optimizing coping and relaxation skills. Example of topics and skills covered in this workshop can include:

- Identifying stress triggers
- Learning about the body's response to stress
- Learning “Portable” relaxation techniques
- Stress perception

Kris Calderon, PhD, CHES, BCIAC, KSC/CCAFS Health Education Administrator will be offering this workshop. Kris is certified in biofeedback and has used relaxation training for stress management in her teaching, service, and research. If interested, please contact her at 867-3414 or e-mail at [Kristine.Calderon@jbosc.ksc.nasa.gov](mailto:Kristine.Calderon@jbosc.ksc.nasa.gov) for more information. The workshop can be delivered in any worksite setting. (TA-C2)

**RESPECT THE DISABLED:** The term “disabled” is universally accepted to mean a person at a physical disadvantage. Disabled people are lawyers, doctors, teachers, politicians, judges, factory workers, fitness instructors, and public speakers. Some are business owners, entrepreneurs and homemakers. Disabled people have to overcome serious obstacles each day in order to succeed at life. If you would like to know about real determination and drive, spend a day with a disabled person and see how they excel despite their many challenges.

On any given day people who are normally courteous unintentionally slight the average disabled person in a number of ways. This is usually due to being unaware of a disabled person’s situation and challenges. Below are a few common sense guidelines intended to provide some awareness. In general:

**1. Do not use disabled parking spaces or access zones**

Using the parking space can prevent a disabled person from being able to shop or conduct other important business. Parking a car or motorcycle in the access zone can prevent a disabled passenger from deploying their wheelchair ramp, or exiting on the passenger side of their vehicle.

**2. Do not use disabled restroom facilities and teach your children not to use them**

People like to use the disabled stall in public places because of the extra room. A person with a wheelchair, guide dog, or a canine assistant cannot use the normal sized stall. They often have to wait around for non-disabled people and their children, who could easily use the regular facilities.

**3. Do not walk into disabled people**

Allow disabled people to pass without bumping them as it is easy to disorient them, or knock them down.

A little respect and courtesy will go a long way toward helping a disabled person have a better day.

**BLOOD DRIVE AND BONE MARROW REGISTRY - SPECIAL COMBO DRIVE:** The Florida’s Blood Centers **BIG RED BUS** will be at NASA HQ Thursday, Aug 19, 2004 from 8:00am - 4:00pm for a Blood Drive and/or Bone Marrow Registry.

**Why Register to Donate Bone Marrow?**

Every year, thousands of adults and children need bone marrow transplants; a procedure that may be their only chance for survival. Marrow transplants are a potential cure and sometimes the last hope for people suffering from many cancers and other blood disorders. Your commitment to this drive *CAN* save a life. Minority participation in the National Marrow Donor Program Registry is desperately needed and strongly encouraged.

This summer gifts from the FL Central Blood Centers for donations are: **50% off SEA WORLD and 6 tickets & parking to GAYLORD PALMS Festival of Florida!**

If you make an appointment by August 12th you will receive a “Blood Drop” pin. If you would like to be a part of the National Bone Marrow Registry, you need to pick up information and paperwork in the Occupational Health Facility or in the O&C Fitness Center. Either way, please email for an appointment: **rwilburn@floridasbloodcenters.org**

If you have any questions don’t hesitate to call Stephen Pilkenton @ 867-4662 or Kris Calderon @ 867-3414.
